## Steve Ward

Founder, President, Chief Strategy Officer and Chairman of the Board  
Future N Focus “Dream Catcher” Enterprises, Riverside County, California  
Entrepreneur, Software Developer, National Speaker, Firefighter, Mentor

## INTRODUCTION

---

Steve Ward is an entrepreneur, national speaker, software developer and former firefighter.

He is the creator of the engaging Dream Catcher platform used in many high schools and organizations in Southern California.

Steve Ward overcame insurmountable challenges from his early beginnings in Compton, California with an abusive father along with academic challenges to shift his own mindset in pursuit of his purpose for being here on this planet.

Suffering many years relegated to the back of the class, Steve began an intense internal inquiry including:

- Why am I here?
- What am I supposed to do with my life?
- What was I designed to do?
- How can I show love, give love, and connect with others?

In answering these questions for himself, Steve shifted his own mindset in pursuit of discovering his purpose for being on this planet.

After consciously selecting his first career of firefighting, he went on to create Dream Catcher so that thousands of users can identify their own unique skills, interests and experiences to design a career path that leaves them feeling fulfilled and satisfied.

He retired from firefighting to create Dream Catcher so that thousands of users can identify their own unique skills, interests and experiences to design a career path that leaves them feeling fulfilled and satisfied.

As an entrepreneur, he helps others find their path using his proven strategies.

Please welcome, Steve Ward.
